The California Architects Board (Board) requires that prior to licensure, candidates complete an evidence-based structured internship program developed by the Board called the Comprehensive Intern Development Program (CIDP) in conjunction with the National Council of Architectural Registration Boards' (NCARB) Intern Development Program (IDP).

In an effort to assist interns in locating architectural firms that participate in CIDP/IDP, the Board developed a database listing of firms that provide/participate in the CIDP/IDP on its Web site.

The database helps interns identify firms that support and encourage their interns to complete CIDP/IDP. The firms listed in this database have indicated that they provide or plan to participate in CIDP/IDP in the future. This comprehensive training is crucial to preparedness in passing the Architect Registration Examination (ARE) and their competency as a practicing architect. In addition, CIDP/IDP can help firms attract, train, and retain good employees. Firms will benefit from the increased competence, versatility, and production of employees who are fully exposed to the complexities of professional practice.

Firms that provide or plan to participate in CIDP/IDP and are interested in being listed in this database may complete the form below and either mail it to the California Architects Board at 2420 Del Paso Road, Suite 105, Sacramento, CA 95834 or fax it to (916) 575-7283. Please note that the Web site has a disclaimer posted with the firm listing.

Should you have any questions, please contact Coleen Galvan at (916) 575-7205 or go to <http://www.cab.ca.gov/idp-main.htm> to read more about CIDP/IDP and how this program will benefit your firm.

Sincerely,

Disclaimer Posted on Web Site with Firm Listing: The firms listed have indicated that they either currently participate in CIDP/IDP or plan to in the future. The Board has not evaluated the quality of their internship programs and inclusion in this list should not be viewed as an endorsement by the Board of either the firm or its internship program. Interns should verify the quality of such firms and their programs by checking, among other things, the license status of the persons who will administer the firm's internship program, and making inquiries with professional associations, peer networks, and local Better Business Bureaus.
